## Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

I. Claims 1-12, drawn to driving organic EL display, classified in class 345,

subclass 82.

II. Claims 13-18, drawn to computer implemented method of matching the

reflectance between different ambient light reducing members, classified

in class 348, subclasses 179,602.

2. Inventions of group I-II are related as subcombinations disclosed as usable

together in a single combination. The subcombinations are distinct from each other if

they are shown to be separately usable. In the instant case, invention of group I of has

separate utility such as driving of organic EL display which does related to the layout

circuit by group II.

3. A telephone call was made to Mark Swat on October 23,2006 to request an oral

election to the above restriction requirement, which resulted in request to send

Restriction/Election Office Action to the Applicant.

4. Because these inventions are distinct for the reasons given above and have

acquired a separate status in the art as shown by their different classification, restriction

for examination purposes as indicated is proper.
